

# SPECIAL ENGAGEMENT TEAM – CADETS (SET-C)

ARE YOU WANTING TO CONTINUE YOUR LOVE OF AVIATION, SPACE AND MILITARY-LIKE ACTIVITIES INTO YOUR ADULT LIFE?

For some, this may be a career in the ADF, or in a Defence civilian career in the Australian Public Service.

The Specialist Engagement Team – Cadets (SET-C), part of the ADF Reserve and Cadet Support Division, has been developed to facilitate, support and guide Cadets to realise what opportunities may exist in a career post cadets.

Major Belinda Davis, Senior Engagement Officer at SET-C, says the capability has been established to predominantly support and mentor Cadets across all three youth development programs that are Candidates in the ADF Careers pipeline.

Additionally, they can provide information on other student pathways on offer.

## DO YOU KNOW ABOUT THE DEFENCE WORK EXPERIENCE PROGRAM?

Do you want to experience a day in the life of an ADF Chef, Medic or Band Member?

Or learn first-hand what rewarding STEM careers are available in the ADF?

Maybe you would like to spend a day on a Defence Base?

The Defence Work Experience Program provides young Australians with an interest in a Defence career, the opportunity to gain exposure to a range of job roles available within the ADF.

To explore what opportunities are available and maybe find your next work experience placement – follow the QR code below to view the Defence Work Experience Program Jobs List.

“Our team are ADF military members, many of whom at some stage in their career have been posted to Australian Defence Force Recruiting, so they can answer your questions on service life, a career in Defence and have that first-hand knowledge of the application process to support your recruitment journey,” Major Davis said.

“We hope to help cadets explore their version of the ‘Cadet Value Proposition’, which means understanding how the valuable skills, knowledge, and attributes they have learned and developed can lead to success elsewhere in life, both professionally and personally.”

“We are always looking for candidates seeking specialist skills roles or who may bring diversity and a new perspective to the Defence community.”

The team from SET-C will be visiting career days and Cadet Events, and you may even see them drop in for a chat at your next exercise or parade night.

If you are thinking of joining the ADF, or applying for a Defence civilian career in the Australian Public Service, contact the SET-C team at:
